Competent Authority of PRIIPS KID Manufacturer: *Commission de Surveillance du Secteur Financier (CSSF)*
This document was last updated on 06/06/2024.

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THE PRODUCT?

TYPE

The Fund was incorporated as a special limited partnership (*société en commandite spéciale*) under the Luxembourg law of 10 August 1915 on commercial companies, as amended (the "**1915 Law**") and qualifies as a closed-ended alternative investment fund under the Luxembourg law of 12 July 2013 on alternative investment fund managers as amended from time to time (the "**AIFM Law**"). PAI Partners S.à r.l. is acting as the alternative investment fund manager and manager (*gérant*) (the "**Management Company**" or the "**Manager**" as the case may be) of the Fund in accordance with the 1915 Law and the AIFM Law.

OBJECTIVES

In accordance with the "Investment Policy" described in the limited partnership agreement (the "**LPA**") and the Legal, Regulatory and Tax Considerations Memorandum (the "**Memorandum**") of the Fund, the Fund is being organized with a view to realizing substantial long-term capital gains through investments made primarily in equity, and securities providing access to share capital, and in addition, as the case may be, other equity related and debt investments in unquoted companies, buyouts and leveraged transactions. The Partnership will predominantly focus on businesses either located, or with significant business activities, in Europe.

INTENDED RETAIL INVESTOR

The Fund is intended to be marketed to professional and retail investors having sufficient experience of private equity funds and a long-term investment horizon. In particular, the product is only suitable to Investors that (i) qualify as having sufficient experience and theoretical knowledge of private equity funds, (ii) are able to bear the loss of their entire investment and (iii) who fully understand and are willing to assume the risks involved in such an investment program.

TERM

The Fund, unless dissolved earlier or terminated pursuant to any specific cause set forth in the 1915 Law or other mandatory law, shall have a term of ten (10) years, except in the event of an early dissolution as provided for by the LPA. This term may be extended, by the Manager, by up to three (3) additional one-year periods in accordance with the terms of the LPA.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

1	2	3	4	5	6	7
---	---	---	---	---	---	---

← lower risk Higher risk→

The risk indicator assumes the Investor keeps the Fund for 10 years. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of the Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because the Manager is not able to pay the Investor. We have classified the Fund as 6 out of 7, which is the second highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the capacity to pay the

Investor. Changes to tax laws/treaties may adversely affect returns on the Investor's investment. The Fund does not include any protection from future market performance, as a result the Investor could lose some or all of his investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

Minimum: There is no minimum guaranteed return. You could lose some or all of your investment

Investment EUR 10 000		10 years (Required minimum holding period)
Stress scenario	What the Investor might get back after costs	5,550
	Average return each year (%)	-5.72%
Unfavorable scenario	What the Investor might get back after costs	10,030
	Average return each year (%)	0.03%
Moderate scenario	What the Investor might get back after costs	19,120
	Average return each year (%)	6.70%
Favorable scenario	What the Investor might get back after costs	26,910
	Average return each year (%)	10.41%

This table shows the money the Investor could get back over the next 10 years, under different scenarios, assuming that the Investor invests €10,000. The scenarios shown illustrate how the Investor's investment could perform. The Investor can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and not an exact indicator. What the Investor gets will vary depending on how the market performs and how long the Investor keeps the investment/product.

The stress scenario shows what the Investor might get back in extreme market circumstances, and it does not take into account the situation where the Manager is not able to pay the Investor. The figures shown include all the costs of the product itself but may not include all the costs that Investor pays to his advisor. The figures do not take into account the Investor's personal tax situation, which may also affect how much the Investor gets back.

WHAT HAPPENS IF PAI PARTNERS S.A.R.L. IS UNABLE TO PAY OUT?

Losses are not covered by an investor compensation or guarantee scheme.

If PAI Partners S.à r.l. is unable to pay out, the Investor may not recover the sums invested and the Investor may therefore face a financial loss and will not be able to make a claim to the CSSF.

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs borne by the Investor will have on his investment return. The total costs take into account one-off, ongoing and incidental costs. The amounts shown hereinafter are the cumulative costs of the Product itself. The figures assume the Investor invests €10,000 and are estimates subject to change in the future.

Annual cost impact

The person selling or advising the Investor about this product may charge the Investor additional costs. If so, this person will provide the Investor with information about these costs, and show the Investor the impact that all costs will have on his investment over time.

Investment EUR 10.000	If you exit after 10 years (Required minimum holding period)
Total costs	3,745
Annual cost impact	1.9%

This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.6% before costs and 6.7% after costs.

COMPOSITION OF COSTS

The table below shows the impact of the different types of costs on the investment return, the Investor might get after one year and the meaning of the different cost categories.

			If you exit after 1 year
One-off costs upon entry or exit	Entry costs	Costs the Investor pays when making its investments. This is the most the Investor will pay, and the Investor could pay less.	EUR 0
	Exit costs	The impact of the costs of exiting the investment when it matures.	EUR 0
Ongoing costs taken each year	Portfolio transaction costs	The impact of the costs of us buying and selling underlying investments for the product.	EUR 5
	Other ongoing costs	The impact of the costs that the Manager retains each year for managing your investments.	EUR 55
Incidental costs taken under specific conditions	Carried interests	The impact of carried interests retained when the investment has performed better than the preferred return. The Manager takes 20% of the overall realized performance when the investment has performed better than the preferred return (8%), as further outlined in the LPA	EUR 0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

REQUIRED MINIMUM HOLDING PERIOD: 10 years

The Fund is a closed-ended alternative investment fund. Holding periods are set to last until the occurrence of the Fund's term as described under the "Commencement and Duration" heading in the LPA. An investor may not withdraw from the Fund, except to the extent required to comply with applicable laws or regulations or at the sole discretion of the Manager. An interest in the Fund may not be transferred without the prior written consent of the Manager in accordance with the terms of the LPA. The minimum amount of commitment to be transferred is €1,000,000. However, the Management Company shall have the right to consent to a lower amount to be transferred in its sole and absolute discretion.

HOW CAN I COMPLAIN?

Complaints have to be addressed to the Complaints Handling Officer in writing (via ordinary mail or email):
